MULTI USE PRODUCTS

Alternative solutions for your changing needs are, as always, provided by Rubikap.

In the rapidly passing first quarter of the 21st century, global issues such as climate change, global warming, efficient use of energy resources, and waste management have placed a mission on all individuals and organizations to adopt more responsible consumption behaviors.

Starting from this responsibility, Rubikap has introduced a 30-wash life cycle MULTI-USE product range, which will not only provide the most economical and practical solutions for your fast and temporary usage needs but also reduce resource consumption, minimize waste, and decrease CO2 emissions by offering washable and reusable products.

The products in this series have been tested and certified by international independent auditing institutions for durability and strength. They are made of heavier and more robust plastic compared to similar products and are designed to be washed and reused in dishwashers at least 30 times.
