arzum

“Arzum”, 55-years old adventure, fuelled with design and innovation

Registered in Turkey in 1966, Arzum has been the choice of almost every home in the local market ever since. Starting from 1990s, the company began to show up among the top brands selling in Turkey’s small domestic home appliances market. According to the 2019 reports by the international market research company GFK, Arzum is the leading household electrical appliances brand in Turkey’s small electrical household appliances market. Several Arzum products have been honoured with well-known, international awards, such as IF, Plus X and Red Dot.

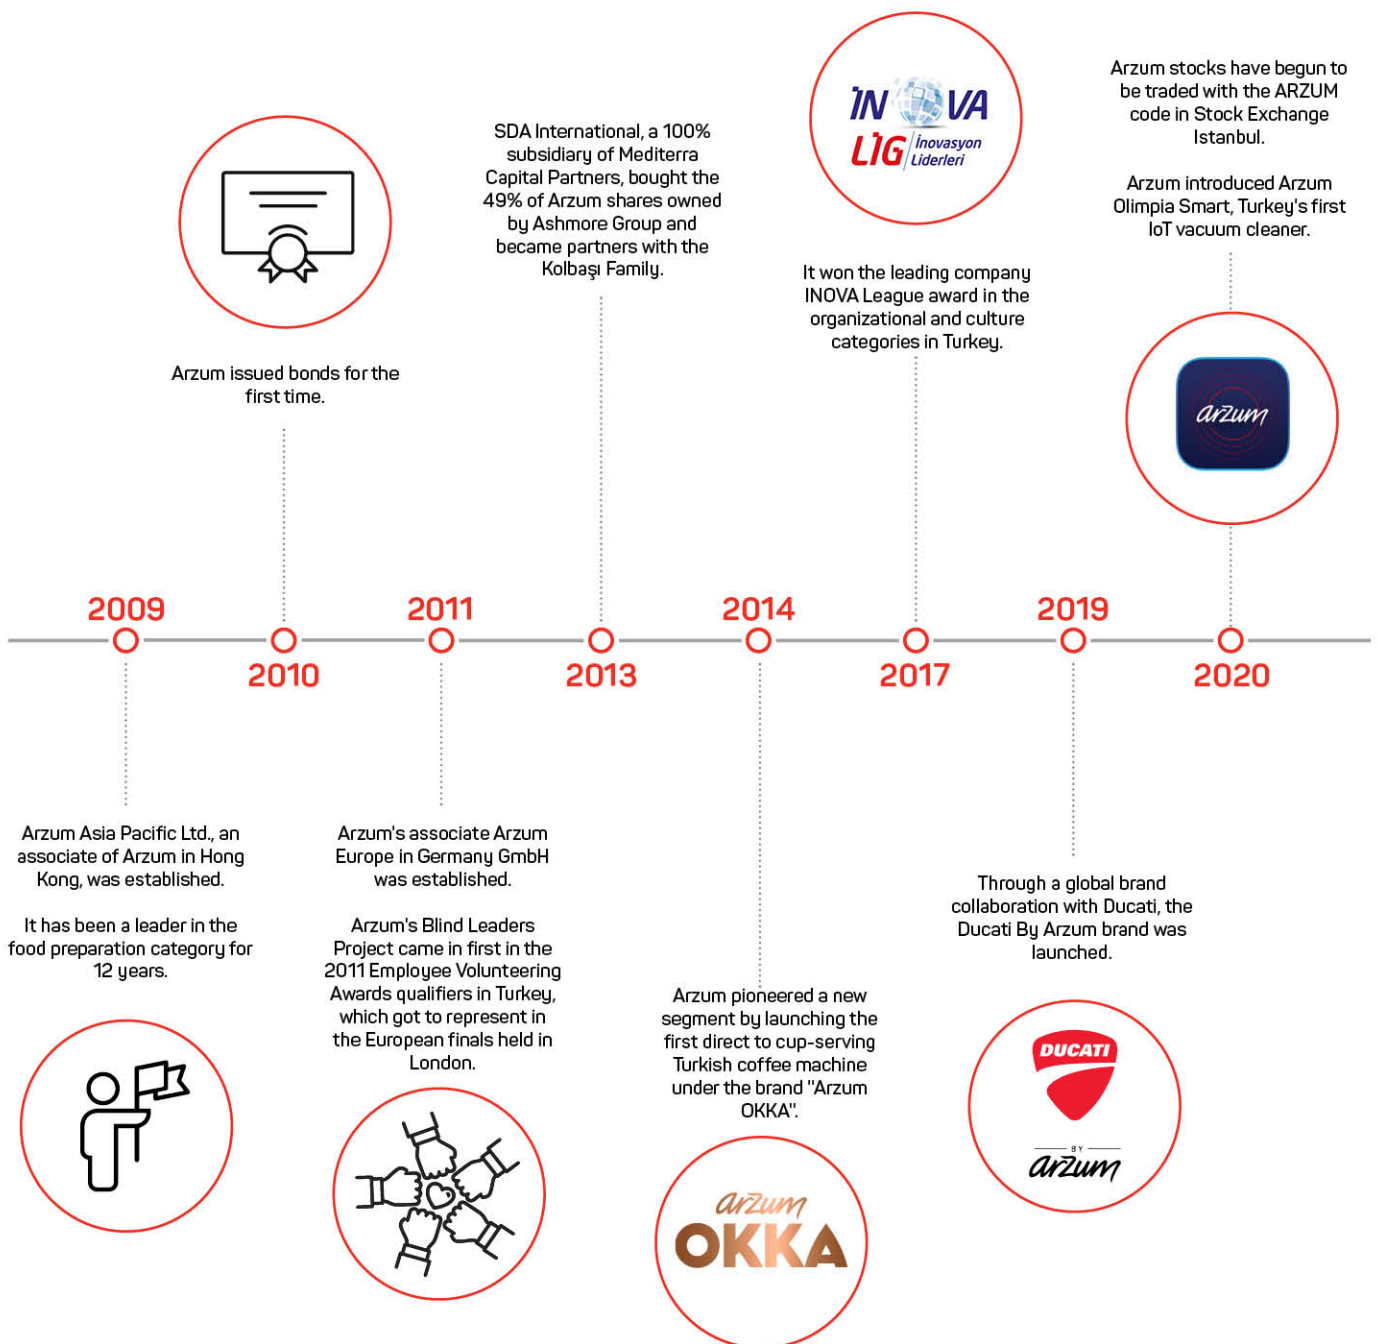

After securing its position in the local market, Arzum put an eye on the international markets and has started to expand its business outside its home. Today, Arzum’s international operations include a subsidiary office in Hong Kong and Germany as well as extensive distributorship network in 40 countries in 5 continents.

Turkey's strategic position in the intersection between east and west, gives Arzum the opportunity to deliver with various products in 6 categories to its distributors worldwide in a matter of weeks. All products in all markets gives consumers the extra peace of mind they expect, making Arzum their preferred brand.

Arzum R&D teams in Turkey and Hong Kong keep on their hard work to offer consumers the latest developments in small domestic home appliances. Arzum's latest innovation, the "OKKA" series automatic Turkish Coffee machine, revolutionizes the joy of coffee worldwide and has been the company's first truly global product. Arzum OKKA is now available in most parts of the world, including North America, Europe, the Middle East, Africa and Australia.

Arzum aims to change consumers' lives with products created by bringing design and innovation together. With more than 250 models in 6 product categories, Arzum aims to provide big differences with small changes to consumers from all around the world.

YOUR TEA IS ALWAYS FRESH THANKS TO HEPTAZE...

Arzum Çaycı Heptaze has Stainless Steel, movable tea filter.

At the end of the desired brewing period, pull the movable filter arm up and lock it to pot handle.

By easily removing the tea filter from the brewed tea after it's steeped, enables tea to preserve it's taste and freshness longer.

With the additional lid, Çaycı Heptaze Stainless Steel body can be used as kettle.
